Sacramento Cat Hospital Newsletter

Your Cat's Health, Our Passion. **Vol. 1, Issue 1; April 2009**

Join Us at the Benevolent Fund Website

The Sacramento Cat Hospital is very happy to announce the unveiling of the Sacramento Cat Foundation website.

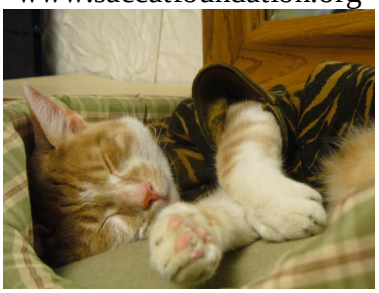
For those clients not already familiar with our Benevolent Fund, it is a special fund we have available which allows us to care for cats in need and also to care for cats we are trying to adopt out into loving homes.

The new website includes more information on the Benevolent Fund, including information on some of our kitty success stories and also information on how you can help us help cats in need.

Our very own Dr. Krysta created the new website and we would love for everyone interested visit.

The website is:

www.saccatfoundation.org



The Sacramento Cat Hospital Needs Your Recipes

Here at the Sacramento Cat Hospital, we are putting together two cookbooks. One, is going to be for cat lovers and the other will be for the cats they love. We would love to include any recipes for humans or cats that you care to submit. (Any cat recipes will be subject to approval by a doctor.)

Recipe submittal forms may be obtained at the front desk.

Thank you for your assistance!

Chris's Corner

Hi, everyone! My name is Christmas and I've lived at the Sacramento Cat Hospital my whole life. If there's one thing I've learned in all my years here, it's that humans are always trying to figure out what cats, just like me, are thinking. I decided that I want to lend the staff a paw and offer you the cat perspective on questions they get asked all the time.

Since this is my first writing job, I decided to start with something easy: "Why put Advantage on my cat if he/she is indoor only?"

Like some cats I'm not a fan of having my Advantage applied every month, but unlike most I know I need it. Fleas carry a bunch of diseases, like Bartonella, that I might get if they bite me and if I eat one when I'm grooming, then I might get tapeworms….yuck.

They also itch like crazy and since they're so small they can jump through screens or come in on clothing. Can you believe they can also jump up to 6 feet?!? So, even though I never go outside, I still have to worry about pesty fleas…fleas, pesty…get it… hehe. So, I figure a monthly Advantage dose is good for me after all.

Please, feel free to submit questions for me to answer next month.

- Chris
